HOW TO USE THE BMT ROUTE & SCHEDULE GUIDE

To use the BMT Route and Schedule Guide, just determine where you are located (origin) on the system map, then find where you want to go (destination). Look at the BMT bus routes near where you are and near where you want to go and select one that serves both your origin and destination. To determine what time the bus will arrive at your point of origin along your route, find the color-coded schedule for that route, look at the time points across the top of the schedule. To judge the time that the bus will come to a stop near you, check the times for the time points just before and after your stop. Follow the same procedure to figure out what time you will arrive at your destination. If you need further assistance in using the Route and Schedule Guide, call the BMT information number: 835-7895.

HOW TO RIDE BMT BUSES

Once you determine which bus to catch and at what location and time, you are ready to ride. Wait by the appropriate bus stop sign along the route until you see your bus. You can identify your bus by reading the number and route name on the electronic sign above the windshield. As you board the bus, please insert either the proper cash fare, pass, smart card, or ride ticket into the fare box. **Change for cash fares will be returned to the passenger in the form of a change card.** The change card can be used to pay for future fares on the transit system. If you need a transfer to complete your trip, ask the driver for one at this time. Take a seat and enjoy your ride. When you are ready to get off, pull the cord or press the touch strip (depending upon the model of bus) about a block prior to your destination. When the bus stops, please exit via the rear door.
